About Me

Fullstack developer with hands-on experience of the angular framework, react framework, open ai apis, hugging face user, ios app development, android app development, and webRTC specialist.

Profile Summary

With 9 years of proven IT industry experience, I have seamlessly transitioned from Android to Angular and Swift, and now specialize in cutting-edge web technologies. My focus is on delivering top-notch client products utilizing a diverse range of programming languages. Passionate about staying updated with the latest web tech advancements, I am dedicated to shaping the future landscape. Expertise spans across Android, Angular, Swift, web development, and comprehensive proficiency in multiple programming languages.
